UX/UI designer with three years across app and web interfaces, from user research and flows to UI systems. Work spans conventional digital products, immersive AR/VR/MR environments and gamification, with an interaction-first approach throughout.

WORK EXPERIENCE

- Freelance UX/UI Designer** Oct 2024 — Ongoing
Self-employed
 - Design user-centred UX flows and UI systems for websites, mobile apps and games.
 - Own the full process end to end: brief, wireframing, UI system and developer handoff.
- UX/UI Designer** Nov 2023 — Sep 2024
Accenture
 - Designed and developed immersive AR, VR and MR experiences for clients in banking, automotive and tourism, from concept ideation to final delivery.
 - Facilitated co-design workshops and brainstorming sessions with client teams, translating outcomes into interactive prototypes.
- UX/UI Designer** Feb 2023 — Mar 2023
API srl · Curricular Internship
 - Designed game mechanics, user experience and interfaces for 3 VR serious games on cyberbullying, cybersecurity and phishing, making the topics more engaging and interactive for students.
- UX/UI & Graphic Designer** Nov 2021 — Oct 2022
imaginary srl
 - Redesigned the UI of a minigame app aimed at slowing cognitive decline in older adults, adapting an interface that had not originally been designed for that audience.
 - Developed game mechanics and graphics for several serious games covering workplace safety, inclusivity, health and rehabilitation.
